1 Formal CPD point

Please be aware you are required to manage your own CPD records. We will provide you with your participation certificate and answer sheet once you have attended the full seminar.

Physical Contaminant Ratings in Ceiling Grid Tiles - A Guide for Specifiers

Proudly supported by

HIMMEL INTERIOR SYSTEMS | CSR

1. What is meant by the term 'Clean Room'?
2. Provide two examples of clean rooms.
3. Define the term 'Physical Containment PC1 Facility'
4. Define the term 'PC2 Facility Containment Facility'
5. When used to describe clean rooms, what do the terms ISO 1 to ISO 9 refer to?
6. What types of ceiling grid tiles are most suitable for installation in clean rooms?

At the end of this panel, attendees will be able to:

- Identify the types of spaces and facilities that require contamination control
- Define the terms 'Physical Containment PC1 Facility' and 'PC2 Facility Containment Facility
- Outline the regulations that apply to contamination control in Australia
- Explain how to identify ceiling products that are suitable for installation in applications requiring contamination control

Competency Codes: PC 12 / PC 16 PRACTICE MANAGEMENT AND PROFESSIONAL CONDUCT, PC 28 PROJECT INITIATION AND CONCEPTUAL DESIGN
