

Please be aware you are required to manage your own CPD records. We will provide you with your participation certificate and answer sheet

## The Influence of Colour & Sound on Biophilic Design

- 1. Define the term 'Biophilia'.
- 2. What is meant by the term 'Biophilic Design'?
- 3. What role does colour play in biophilic design?
- 4. What role do acoustics play in biophilic design?
- 5. In what ways do biophilic ambitions affect other acoustic considerations. Is there sometimes a tradeoff between the two or do they generally complement each other?

## At the end of this panel, attendees will be able to:

- · Define the term 'Biophilic Design'
- · Outline the importance of acoustics in this context
- · Identify the various strategies that specifiers can take to incorporate Biophilic Design concept into their work
- · Identify successful example of Biophilic Design in the built environment
